

# JOBSITE 360°

## **A Full-Service Solution for Temporary Lighting & Power Distribution**

# Jobsite360 offers construction managers peace of mind

Jobsite360 is a revolutionary approach to how you handle temporary lighting and power distribution on your jobsites.

Lind Equipment takes over the entire planning and delivery process, providing you with peace of mind and leaving you with one less thing to worry about.

- **Full-Service Solution** – We will handle everything from design to delivery.
- **Dedicated Team** – Our Design Team will work closely with you and your project team to ensure all project requirements, specs and codes are met.
- **Jobsite 360 Layouts** – Complimentary lighting and power layouts based on your project's floorplans which also include a savings analysis and BOM.
- **Guaranteed On-Time Delivery** – We work with you to plan a delivery schedule so the product arrives on site when you need it.
- **Jobsite Shipping** - Lights are delivered to the jobsite ready to hang with exactly the right assortment of lights needed for that project phase and minimal packaging.
- **Engineered Tough** – Our lights and power units have been engineered and designed for the toughest environments.
- **Purpose-built** – Our equipment is designed to save contractors time and money, while creating a safer and more efficient jobsite.

# Let us focus on the temporary lighting & power distribution for you!

## How does it work?

You provide us with the project drawings or blueprints, and our specialist team creates a layout for you, mapping what equipment you need and where to install it on your jobsite. We take into account all safety and electrical requirements, as well as any project-specific requirements.

Our layout keeps in mind the functionality and benefits of our products, maximizing the efficiency of the jobsite, which ultimately results in savings for you.

After incorporating your feedback on our layouts, we provide you with a temporary lighting and power distribution bill of materials so you can place your order.

After placing your order, you can schedule when you need the various pieces of equipment. Need all the temporary lighting and power equipment for Floors 1-3 now and Floors 4-6 in a month? No problem. Our guaranteed delivery program makes sure that you can set it and forget it.

Your project is assigned a dedicated success manager to provide ongoing support. Enjoy peace of mind with a hassle-free warranty and a team of knowledgeable professionals you can always depend on.

## START TODAY!

Get temporary lighting and power distribution off your plate by booking a call with our team of specialists in less than 60 seconds.

## Where Innovation Meets Functionality

We work to ensure that our products do their job so you can concentrate on doing yours. Jobsite360 lights are built with high-quality components, ultra-efficient LEDs and innovative features that make your projects run smoother & safer.

Compared to traditional bulb-based LED's, our Jobsite360 lighting is a game-changer, slashing material and labor costs by a minimum of 60% while also reducing energy consumption by 40% or more.

Modular 14/3 SJTW daisy-chain

Field serviceable

3-year no hassle warranty

Approved to UL & CSA standards

Built-in surge protection

Theft-resistant 3-pin Quick Connect

Drop tested to surpass military grade standards

Wet location rated to meet OSHA requirements

90V - 277V input range

Temperature rating  
-40°F to +104°F  
-40°C to +40°C

# Jobsite360 Temporary Lighting

## Beacon360 Blaze

### Features

- Reduce installation points at a ratio of 25:1 compared to stringlights.
- Easily relocate or interchange with other Jobsite360 lights throughout the site as the project progresses.
- Quickly transition onto a tripod or floor stand.
- Variety of mounting options.
- Dimmable to half-power.

### Applications

- All-purpose jobsite area light
- Replace stringlights (250 ft worth!)
- Replaces 400W metal-halide

### Recommended guidelines to meet OSHA standards

- Installation height: 8-15 feet
- Spacing: 50 feet
- 2,500 ft<sup>2</sup> light coverage to 5fc

### Overview

|                     |   |
|---------------------|---|

## Beacon120 High-Bay

### Features

- Quick out-of-the-box plug & play installation.
- State-of-the-art DirectDrive technology eliminates need for external driver.
- Easily relocate or interchange with other Jobsite360 lights throughout the site as the project progresses.
- Connects to daisy-chain with modular Quick Connect.
- Compact & lightweight. Easy to uninstall, transport & store.

### Applications

- Area lighting for high ceiling heights
- Replace 400W metal-halide lights

### Recommended guidelines to meet OSHA standards

- Installation height: 16-25 feet
- Spacing: 50 feet
- 2,500 ft<sup>2</sup> light coverage to 5fc

## Beacon980 Large Area Floodlight

### Features

- Reinforced mounting yoke is adaptable to install on virtually any base.
- No expensive/breakable ballast.
- Available as retro-fit kit to upgrade existing light towers/carts.
- State-of-the-art DirectDrive technology eliminates the need for external driver.
- Cart model features built-in generator pad, winch-assisted 12-foot mast & foam filled rubber tires for completely safe and hassle-free operation.

### Applications

- Crane/pit lighting
- General Site Lighting
- Light Carts
- Concrete pours
- Excavations
- Demolition

## Beacon980 LED Tower

### Features

- Unparalleled high light output.
- Plugs into a 120V outlet, 2 units can run on a single 15A circuit.
- Can also run on a user supplied 1,000W or 2,000W suitcase generator.
- Electric mode provides quiet operation with no fumes.
- Easily fits on the back of a pickup truck.
- Heavy-gauge all-steel construction.
- 4-Way forklift pockets for easy deployment.
- Fits through standard doorway.

### Applications

- Replaces a 4,000W Metal Halide Light Tower
- Large area site lighting
- Concrete pours
- Jobsite roadway and walkway lighting

### Overview

## Why we are Better!

### Innovative Design Solutions

Elevate the status quo by incorporating cutting-edge technology and industry advancements to ensure exceptional product quality, safety, reliability, and performance. All designed to withstand harsh environments for years to come.

### Expertise

Industry leaders in manufacturing a diverse range of power distribution equipment customized to meet contractor specifications.

### Customization & Flexibility

Partnering with clients from beginning to end, we ensure the final product aligns perfectly with your specifications while upholding high-quality standards.

Portable

Lockable enclosure

Easily maintained

Weatherproof Enclosures

1-year no hassle warranty

Scalable in sizes and capacity

Multiple input styles

Universal compatibility

Field Inspected

Customizable and versatile

## Power Distribution Box

### Features

- Integrated GFCI Receptacles.
- Dedicated Quad USB-A receptacle for charging mobile devices.
- LED Indicator Light on the 50A Input Receptacle.
- Receptacles angled at 45° and protected with weatherproof covers.
- Internal components are located under a false top for easy access.
- Electrical components are easy to source and readily available.
- Each power unit has a 100ft x 100ft (10,000ft²) area of coverage, assuming the use of 50' extension cords to power tools and equipment.

## Power Dolly

### Features

- Configuration options from 100A-400A.
- Hoisting eyelets.
- Foam filled wheels.
- Storage shelf.
- Cable hook.
- Weatherproof electrical enclosures.
- USB-A charging receptacle.
- Built-in Beacon360 area light.

### Package Recommendation

- Each 50A 125/250V California Standard receptacle is powering one (1) Spider Box.
- Each power unit has a 100ft x 100ft (10,000ft<sup>2</sup>) area of coverage. assuming the use of 50' extension cords to power tools and equipment.

### Overview

| Description              | Power Distribution Dolly   |
|--------------------------|--|
| Input Ampage             | 100A - 400A  |
| Input Voltage            | 120V (480V & 600V Options Available at Request)  |
| Weatherproof Receptacles | 2-8 x 50A 125/250V Twist Lock (Cali Std)<br>6 x 20A 125V T-Slot GFCI Duplex (5-20R)<br>2 x 30A 250V Twist Lock (L6-30R)<br>1 x 4.8A Quad USB-A |
| Construction             | Heavy-Gauge Powder Coated Steel  |

# Jobsite360 Power Distribution

## Transformer Cart

### Features

- Accommodates 30-75KVA transformers.
- Forklift/ telehandler pockets.
- Hoisting eyelets.
- Heavy duty swivel casters.
- Covered storage shelf.
- Weatherproof electrical enclosures.
- USB-A charging receptacle.
- Built-in Beacon360 area light.

### Package Recommendation

- Each 50A 125/250V California Standard receptacle is powering one (1) Spider Box.
- Each power unit has a 100ft x 100ft (10,000ft<sup>2</sup>) area of coverage, assuming the use of 50' extension cords to power tools and equipment.

### Overview

| Description              | Power Distribution Transformer Cart  |
|--------------------------|--|
| Input Amperage           | 30A – 400A   |

# Jobsite360 Success Story

## Best Practices

For contractors looking to make the biggest positive impact to their operations, standardizing Jobsite360 across all divisions and locations generates huge savings in labor, equipment and operations. PCL's Alberta division is a perfect example of the power of Jobsite360 as a standardized solution. This group has standardized on Jobsite360 lights since 2016, turning jobsite lighting into an asset instead of an expense. This means building a fleet of Jobsite360 lights that can be used again and again across many projects, creating massive efficiencies.

By standardizing on Jobsite360, PCL Alberta has achieved:

- Reduction in onsite power costs, which are often borne by the GC in Canadian projects. PCL Alberta calculated that one project alone drove over \$3M in energy savings.
- Reduction in labour costs, as all Jobsite360 lights are plug and play and crews are familiar with the spacing and brightness from using them over and over again.
- Reduction in asset costs as lights are reused from job to job rather than being thrown out afterwards. The durability of the lights is such that many of the original lights purchased in 2016 are still in service. PCL shop is trained to make maintenance repairs, and larger repairs are handled quickly by Lind Equipment, ensuring the longest life possible for the assets.

As experts in all aspects of temporary lighting and power, from designing to planning to maintaining, ask us how you would benefit from standardizing on Jobsite360 across your organization.
